WINNING CAMPAIGN VARNA EUROPEAN CITY OF SPORTS IN 2019!

Varna is a city with rich traditions in sport and fitness and not only in Bulgaria and world champions, but also with the other public sports, where thousands of citizens participate. The support of the sports clubs and the responsible policies for development of healthy sports infrastructure are important priorities for Varna Municipality. We are motivated to create modern facilities for modern and ambitious sports to benefit the other and healthy way of living among people.

For the last three years we started to build sports fields, we improve sports facilities with equipped areas for football, basketball and handball. We constructed outdoor fitness areas and sports grounds in all areas of the city. The national programs for free training for children in various sports are very popular. We renovated the Congress Hall in the Palace of Culture and Sports, and it is already being modernized, sports halls like the Multifunctional Championship, because the athletes always wanted to be supported for our national team. We hosted the World Championships in Shumen town and the European Championships in Gueorgui Ivanchev the Champion Hall (up to the 10th round). Championships were in the Bulgaria Rugby, the first state championship in basketball for disabled individuals, the European cup sailing.

Bulgaria has been named to host the largest sailing event – the International Regatta "Sail Spirit" for 2019, which will gather the most beautiful sailing ships in the world. This is the fourth year in which we receive the invitation. The oldest swimming competition in Bulgaria takes place in the sea capital too – the traditional Golden Ring, the first start of which was given in the 18th year 1919.

We are expanding the sports facilities of our city established by generations of talented swimmers, athletes, sportsmen and athletes, with impressive results, achieved in European, world and Olympic competitions. We are proud of these achievements, we thank them and are still for making the value for our children in Gueorgui Ivanchev, swimming, judo, tennis, volleyball and basketball, across the roads on the facade of one of Varna's sports centers – "Spartak Varna".

Due to its sports great national athletes, world energy and will for development, Varna deserves to be European City of Sports in 2019.
